*- K-8 Principal*

Elementary children need bite-sized, snackable messages that touch their hearts and minds. AJ the Animated Illusionist has designed a program that holds their attention from the minute they walk into the auditorium. As they enter, you will see their faces light up when they are greeted with sounds and colors that satisfy their desire for story and fun.

AJ's messages use kid-friendly terms and high quality visuals that engage students in grades K-5. In his trunk of sidekicks lives a sweet old turtle who relates to students who are sad and can't imagine better days ahead. The audience will also meet a "loser" rabbit who finds out that all it takes to be a winner is getting up one more time than you fall down. Each message is short and memorable.

The program incorporates constant audience interaction and participation. The kids go wild with laughter and enjoy being part of the show. At the end of the program, they know more about love and have learned lessons that will stay with them forever. Laughter, love, and lessons are part of every presentation.

As part of the Dignity Revolution program, the presentation also educates and empowers students to end bullying by elevating value, courage, and respect. A typical show lasts 45 minutes, but all shows can be tailored for time and message.
